

### REMARKS

This present amendment is being filed concurrently with an Appeal Brief. The Examiner is requested to enter these amendments before considering the Brief.

Because the present application is under appeal, the above amendments are presented pursuant to 37 CFR 41.33 (b), section (1). As indicated above, the amendments merely cancel claims without affecting the scope of any other pending claim. Specifically, claims 11-14 are canceled. Accordingly, these amendments should be entered.

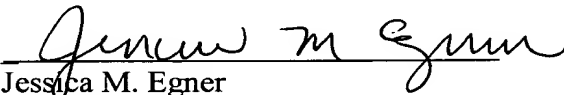

In the final Office Action, the Examiner rejected independent claim 11 and dependent claims 12-14 under 35 U.S.C. §112, 1<sup>st</sup> paragraph, failing to meet the written description requirement. In response to the rejection, Applicant amended claim 11, deleting the language "generating one or more HTML files based on one or more XML files", thereby mooted the rejection. However, the Examiner did not enter the amendment after final rejection.

Therefore, Applicant is now canceling claims 11-14 without prejudice.

With respect to the rejection of claims 1-10 and 15-20 under 35 U.S.C. §103(a), being rendered unpatentable by U.S. Application Publication No. 2002/0056129 to Blackketter et al. in view of U.S. Patent No. 6,668,378 to Leak et al., the Examiner is respectfully directed to the accompanying Appeal Brief in which those rejections are addressed.

In view of the foregoing, it is respectfully requested that the rejections and objection of record be reconsidered and withdrawn by the Examiner, that claims 1-10 and 15-20 be allowed, and that the application be passed to issue. If a conference would expedite prosecution of the instant application, the Examiner is hereby invited to telephone the undersigned to arrange such a conference.

Respectfully submitted,
